- Vitamins & on the go snacks

For your customized Total Lean® experience, visit [www.totallean.com](http://www.totallean.com).

<sup>^</sup> Clinically proven to increase post-workout calorie burning by up to 60% for up to one hour after a workout. This double-blind, placebo-controlled, crossover study consisted of 22 healthy men and women. Participants exercised on a treadmill on two occasions. On one occasion, they took Burn 60™ before exercise and on the second, they took a placebo. The amount of calories burned during the first hour post-exercise was measured, and participants burned up to 60% more calories while on Burn 60™ compared to when they took the placebo.
